

Engineering Collection

Research by engineers, for engineers

An engineer's "high privilege" was eloquently described by Henry Hoover as the act of transforming "a figment of the imagination... through the aid of science to a plan on paper... to realization in stone or metal or energy to bring jobs and homes to men (and) elevate the standard of living." For a more in-depth exploration of the science and expertise behind Australasia's engineering achievements, look to *Informit*.

Informit Engineering Collection draws together authoritative full text content, past and present from peak professional bodies **Engineers Australia**, the **Institute of Professional Engineers New Zealand (IPENZ)** and other leading publishers.

This essential reference tool allows students and engineering professionals to quickly pinpoint the hard-to-find industry information, insights and outcomes they need to achieve the best results. Content sources include unique, peer reviewed journals, conference papers, technical papers and magazines.

Subjects covered include:

- » building & construction
- » chemical engineering
- » civil engineering
- » electrical engineering
- » transport
- » environmental technology
- » manufacturing
- » military engineering
- » nautical engineering

Engineering Collection

Research by engineers, for engineers

Informit Engineering Collection presents the latest and past research from peak professional bodies Engineers Australia, the Institute of Professional Engineers New Zealand (IPENZ) and other leading Australasian publishers. Content includes influential journal articles, projects, case studies and reports of benefit to professionals, students and policy makers looking for quick and targeted access to reputable industry information.

Why subscribe to the Informit Engineering Collection?

Benefits

Core content – the first full text, engineering specific collection of its kind providing access to thousands of technical papers, journal articles and conference papers unavailable elsewhere

Authoritative sources - Engineers Australia, IPENZ, Australian Road Research Board Group Ltd, the Royal Australian Chemical Institute and others

Established – decades of backfiles means you won't overlook important archive content

Accessibility – targeted search functionality helps you quickly pinpoint research relevant to each specialisation

Comprehensive – the largest full text database of Australasian Engineering research available online

Email alerts – track subjects and titles of interest to you

Additional benefits for librarians

Integrated – link to Informit content from your library catalogue

Current – RSS title feeds keep you updated when new titles are added

Measurable – monitor COUNTER compliant usage statistics via Informit Admin

Customisable – manage display options, linking preferences and authentication with Informit Admin

Remote access – support users working outside the library

Journals covered include

- » *Air Quality and Climate Change*
- » *Australian Journal of Structural Engineering*
- » *Australian Journal of Civil Engineering*
- » *Australian Journal of Water Resources*
- » *Chemistry in Australia*
- » *Connections Magazines*
- » *Road & Transport Research*
- » *Australian Journal of Electrical & Electronics Engineering*
- » *Transactions of Multi-disciplinary Engineering*

Magazines covered include

- » *Cabling Connection*
- » *Connected Home Australia*
- » *Electrical Connection*
- » *Plumbing Connection*
- » *Building Connection*

Over 70 Informit® databases to choose from

Search, research and discover core and unique content from the Asia Pacific region. With a wide variety of subject databases to choose from, a subscription to Informit increases the diversity of your collections with authoritative resources unavailable through other content providers.

Informit databases include *A+ Education*, *Business Collection*, *Engineering Collection*, *Health Collection*, *Humanities & Social Sciences Collection*, *AGIS Plus Text (Law)*, *Australian Public Affairs - Full Text*, *TVNews and RequestTV*. www.informit.com.au

About RMIT Publishing

Reputable, relevant and regional – RMIT Publishing is the largest provider of authoritative content from the Asia Pacific region which it delivers through the Informit brand and platform. A preferred partner for content providers, RMIT Publishing collaborates with publishers, government departments, research institutes and others to deliver the results sought by students, professionals, researchers, educators and publishers alike.
www.rmitpublishing.com.au

RMIT Publishing is a business unit of RMIT Training Pty Ltd – a wholly owned subsidiary of RMIT University.
